PROJECTS

InstaVinsta

Live:-[<https://instavinsta-ffdq.onrender.com>]

- Engineered a robust Social Media Website with 16 essential functionalities
- Employed HTML, CSS, and JavaScript to architect an intuitive, visually captivating, and responsive UI
- Constructed a scalable and efficient backend using a modern tech stack including Node.js, MongoDB, Express.js, and multer.js.
- Implemented a real-time chatting feature using Socket.io, enabling users to send and receive messages instantly.
- Utilized GridFS for efficient storage and retrieval of user-uploaded media files.

Ochi

Live:-[<https://ochieye.netlify.app>]

- Innovative Design: Crafted a modern, visually appealing integrating smooth scrolling and interactive animations.
- Utilized GSAP ScrollTrigger for seamless animations and scroll-based interactions.
- Integrated React components and state management to maintain application structure.

Cloth Keeper

Live:-(<https://clothshop-0ehb.onrender.com>)

- Developed a website for managing cloth products using React.js and API
- Dynamic Product management:- Add, update, rename, delete products
- Category Management:- Create and organize products
- User-friendly interface

MovieFlix

Live:-[<https://moviesflix-eight.vercel.app>]

- Developed a dynamic movie information website using React.js.
- Integrated APIs to fetch and display up-to-date movie and TV show details, including posters, cast information, release dates, and IMDb ratings.
- Designed and implemented a people page showcasing popular actors.
- Implemented a dynamic home page feature with a rotating poster that updates on refresh.

CERTIFICATION

C Programming, Front-End Web Development, Back-End Development from Sheryians Coding School

SOFT SKILLS

- Solution-oriented individual with a knack for problem-solving
- Collaborator skilled at fostering teamwork and cooperation
